- Any wall or ceilings that require low maintenance
- Any high moisture, salty, acidic areas where rust and corrosion are a problem

EPI9000 Panel - 36"

Clean Room

EPI9000 Wall Panels allows you the flexibility to construct clean rooms, equipment enclosures, partition walls or interior demountable partition walls quickly and easily. The 36-inch wide panels are available in custom lengths to fit your project requirements, and are perfect for corrosive and/or high moisture areas. We can custom design a clean room that fits your requirements. Add our plastic suspended ceiling system and doors for a complete low maintenance clean room, as shown.

Extrutech Panels allow you the flexibility to construct interior walls faster, easier and safer. Use wherever interior partition walls are required. Clean rooms, Food Processing, Agricultural Facilities, and Dairies

- Durable, strong 36 in x 1 3/4 in multi-chambered, interlocking dovetail wall panel system made of rigid, virgin polymers. Easy assembly, all parts pre-cut
- Low maintenance, easy to clean, spray off with water/cleaner
- Finish surface on both sides of panel, never needs painting
- System includes all corner, base and edge trims
- Custom sizes and insulated panels available
- Moisture- and rot-proof, mildew resistant
- Brightens the interior of any building
- Available in bright, high gloss, white color
- Lightweight, easy to handle
- No exposed fasteners
- Meets USDA Requirements
